CERTIFICATE

This is to certify that the project entitled “**PIEZO ELECTRIC BASED FOOTSTEP POWER GENERATION SYSTEM**” carried out by the following students of **III Year B.Tech in Electronics and Communication Engineering** during the academic year 2022-23.

THALLAPELly SHIRISHA **206Y1A0456**

THATIPAMULA JAAHNAVE **206Y1A0458**

RAJOJU VINEELA **206Y1A0450**

RASA SINDHU **206Y1A0451**

ABSTRACT:

Power Generation and its use is one of the issues. Now-a-days number of power sources are present, non-renewable and renewable, but still can't overcome our power needs. Among these human population is one of the resources. In this project we are doing generation of power by walking or running. Power can be generated by walking on the stairs. The generated power will be stored and then we can use it for domestic purpose. This system can be installed at homes, schools, colleges, where the people moves around the clock. When there is some vibrations, stress or strain force exert by foot on flat platform.

It can be used for charging devices example laptop, mobile, etc.
