Number of days conducted	One day
Name of the resource person	R.Sridhar
Number of students participated	92
Date	07-02-2020

#### ABOUT PROGRAMME:

**Objective of the Program:** The main objective of this program is

- Assist students in selecting the right universities and programs based on their academic goals and interests.
- Guide students through the application process, including creating compelling statements of purpose and securing strong letters of recommendation.
- Prepare students for standardized tests like TOEFL, IELTS, GRE, or GMAT, and help them achieve competitive scores.
- Provide guidance on visa applications and ensure students have the necessary documentation for studying abroad.
- Prepare students for cultural adaptation, including understanding local customs, norms, and expectations.
- Equip students with effective study skills and strategies for success in a foreign academic environment.

**OUTCOME:** By utilizing this programme many of our students are selected for Higher education.

**FEEDBACK OF STUDENTS:** The session was so powerful to unlock someone's full potential, and this session cleared lot of doubts on abroad studies.

Number Of Days Conducted	One day
Name Of the Resource Person	Dr.M.Vijay Saradhi
Number Of Students Participated	173
Date	18-12-2019

#### **ABOUT PROGRAMME:**

**Objective of the Program:** The main objective of this program is

- Provide an overview of the field of software engineering, its history, and its importance in modern technology.
- Introduce the phases of the software development lifecycle (SDLC) and the role of each phase in delivering high-quality software.
- Teach methods for gathering, documenting, and managing software requirements, ensuring alignment with stakeholder needs.
- Familiarize students with software design principles, including architectural design, module design, and user interface design.
- Introduce software testing techniques, quality assurance processes, and strategies for identifying and fixing defects.

**OUTCOME:** The program outcome is to equip students with the essential knowledge and skills needed to pursue a career in software engineering, emphasizing technical proficiency, teamwork, and ethical considerations.

#### ABOUT PROGRAMME:

**Objective of the Program:** The main objective of this program is

- Learn how to select materials based on specific application requirements, considering factors such as strength, durability, thermal conductivity, and electrical properties.
- Explore the latest advancements in materials science and technology.
- Gain hands-on experience in the synthesis, fabrication, and processing techniques of advanced materials.
- Learn various characterization techniques, such as spectroscopy, microscopy, and X-ray diffraction, to analyze the properties and structure of advanced materials.
- Develop skills in testing and evaluating advanced materials to assess their performance and reliability under different conditions.

**OUTCOME:** The program helped how to select materials based on specific application requirements, considering factors such as strength, durability, thermal conductivity, and electrical properties.

**FEEDBACK OF STUDENTS:** The speaker was explaining the advanced topic really well so that we got better idea thank you for the session.
