1. Plantation Programme

DATE: 18-08-2018

The NSS unit of SRITW conducted "Plantation Program" on 18th August 2018 in Ananthasagar village to bring awareness on Greenery and explained the importance of villagers. 35 students participated actively in Greenery awareness and importance of plantation program among villagers

Our beloved chairman of SR Educational institutions, Sri. A. Varada Reddy Garu took a proactive initiative on the topic by supporting and advocating for the awareness program on Plantation Program conducted by the NSS Unit of SRITW. His interest on initiating such a program reflects his dedication of society welfare. His involvement served as an inspiring example of how influential figures can actively contribute to initiatives that promote health.

Respected Principal Madam, Dr. I.Rajasri Reddy Garu, played a pivotal role in the successful execution of the awareness program on Plantation Program conducted by the NSS Unit of SRITW. Her leadership and guidance were instrumental in bringing together the volunteers and ensuring the program's objectives were met. She has actively supported and encouraged the initiative, Emphasizing the importance of proper Greenery for the rural background people. Her involvement not only highlighted her dedication to the betterment of society but also inspired others to actively participate in such impactful initiatives, making a positive difference in the lives of the village people and the community at large.

During this event, 35 students from SRITW played an active role in educating the students on the importance of plantation to villagers. They provided valuable insights and information to the students on how to ensure Greenery. This included instructions on keeping the toilets clean and sanitary, promoting personal hygiene, and the significance of maintaining a healthy greenery environment in the community.

The program aimed to raise awareness among the rural background people about the significance of greenery plantation awareness program is an initiative aimed at promoting the importance of planting trees and maintaining green spaces for environmental and social benefits. Such programs often include activities like tree planting events, workshops on

SUMATHI REDDY

sustainable gardening, and educational campaigns to raise awareness about the significance of greenery for a healthier planet. These efforts help combat climate change, improve air quality, and enhance the overall well-being of communities.

The program was a collective effort, with all the volunteers from SRITW actively participating and playing a crucial role. Environmental Benefits: Such programs promote the planting of trees and other vegetation, which helps combat climate change by absorbing carbon dioxide, improving air quality, and preventing soil erosion.

This program had a far-reaching impact. Biodiversity Conservation: Planting native species supports local wildlife and contributes to the preservation of biodiversity, as it provides habitat and food sources for various species. Community Engagement: Greenery plantation programs often involve community participation, fostering a sense of responsibility and ownership among citizens for the environment. Sustainable Practices: Promoting sustainable planting and care of trees and plants encourages responsible land use and resource management.

2. Health Camp for Senior Citizens

DATE: 25-02-2019

NSS unit of SRITW Organized an awareness program on Health Camp on 25th February 2019 for senior citizens of Elkathurthy village. This health camp provided the medical tests and medicines to the senior citizens. Explained the importance of medical tests and regularity towards medicine.

Our beloved chairman of SR Educational institutions, Sri. A. Varada Reddy Garu took a proactive initiative on the topic Health Camp for senior citizens by supporting and advocating for the awareness program conducted by the NSS Unit of SRITW. His interest in initiating such a program reflects his dedication to society health welfare. His involvement served as an inspiring example of how influential figures can actively contribute to initiatives that promote health and hygiene.

Respected Principal Madam, Dr. I Rajasri Reddy Garu, played a pivotal role in the successful execution of the awareness program on health camp conducted by the NSS Unit of SRITW. Her leadership and guidance were instrumental in bringing together the volunteers and ensuring the program's objectives were met. She has actively supported and encouraged the initiative, emphasizing the importance of proper medication for the rural background people. Her involvement not only highlighted her dedication to the betterment of society but also inspired others to actively participate in such impactful initiatives, making a positive difference in the lives of the people and the community at large.

During this event, 30 students from SRITW played an active role in educating the students on the importance of health camp and medication. They provided valuable insights and information to the students on how to ensure proper medical practices. This included instructions and the significance of maintaining a healthy environment in the community.

The program aimed to raise awareness among the rural background senior citizens about the significance of medical camp awareness program is an initiative aimed at informing the community about upcoming medical camps. It typically involves promoting the camp's date, location, services offered, and any specific health issues that will be addressed. This can be done through various means, such as flyers, posters, social media, community announcements, and local outreach to ensure that people in need are aware of and can

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

participate in the medical camp.

The program was a collective effort, with all the volunteers from SRITW actively participating and playing a crucial role. The significance of a medical camp awareness program lies in its ability to address several important aspects of healthcare and community well-being.

This program had a far-reaching impact Preventive Care: These programs often focus on preventive healthcare. By making people aware of the medical camp, they have the opportunity to seek early diagnosis and treatment, which can prevent health issues from worsening and Health Education: Medical camp awareness programs often include health education components. This empowers the community with knowledge about good health practices, nutrition, hygiene, and disease prevention. Chronic Disease Management: In areas where chronic diseases are prevalent, these programs can provide essential monitoring and management, ensuring that patients receive necessary care and medication.

The program on health camp for senior citizens conducted by the NSS Unit of SRITW at the Elkathurthy village on February 25 2019, stands as example of proactive society service and medication. The active involvement of SRITW's dedicated volunteers and their commitment to health camp among rural background senior citizens is commendable. The participation of esteemed figures like Chairman Sri A. Varada Reddy garu and Principal Dr. I Rajasri Reddy further underscores the significance of this initiative. This is a shining example of how medical education and community engagement can lead to a healthier and more aware society. It is a testament to the power of collective effort and dedication to making a positive impact on the lives of individuals and the community at large.

The program was a collective effort, with 30 students from SRITW actively participating and playing a skits and drama plays on social issues are a powerful way to raise awareness and provoke discussions on important topics. Whether it's addressing issues like poverty, discrimination, environmental concerns, or mental health, these creative mediums can engage and educate audiences effectively.

This program had a far-reaching impact Skits and drama plays play a significant role in social issues awareness programs for several reasons:

Engagement: Skits and drama are engaging forms of storytelling that captivate audiences. They can elicit emotions and empathy, making it easier for people to connect with the issues being portrayed. Education: These mediums can inform and educate the audience about various social issues, providing valuable insights, statistics, and context that they might not be aware of otherwise.

Humanization: Skits and plays humanize complex social issues by presenting them through relatable characters and situations. This can help break down stereotypes and prejudice.

The Awareness program on conducted by the NSS Unit of SRITW on the 18th August 2018 in Ananthasagar village. The active involvement of SRITW's 30 students and their commitment to improving society among people is commendable. The participation of esteemed figures like Chairman Sri A. Varadha Reddy garu and Principal Dr. I. Rajasri Reddy further underscores the significance of this initiative. This is a shining example of how education and community engagement can lead to more aware society. It is a testament to the power of collective effort and dedication to making a positive impact on the lives of individuals and the community at large.

4. Health Education Awareness

DATE: 04-3-2019

The NSS unit of SRITW conducted a campaign on "Seasonal Diseases" at Jagannathpur village. Now a days most of the people are not aware of health education, and this may leads to health issues. So, SRITW NSS unit came up with awareness on health education program on 4th of March 2019.

Our beloved chairman of SR Educational institutions, Sri. A. Varada Reddy Garu took a proactive initiative on the topic Seasonal Diseases by supporting and advocating for the awareness program on seasonal diseases conducted by the NSS Unit of SRITW. His interest in initiating such a program reflects his dedication to welfare. His involvement served as an inspiring example of how influential figures can actively contribute to initiatives that promote health.

Respected Principal Madam, Dr. I. Rajasri Reddy Garu, played a pivotal role in the successful execution of the awareness program on seasonal diseases Program conducted by the NSS Unit of SRITW. Her leadership and guidance were instrumental on bringing together the volunteers and ensuring the program's objectives were met. She has actively supported and encouraged the initiative, Emphasizing the importance of proper awareness on diseases for Jagannathpur village people. Her involvement not only highlighted her dedication to the betterment of society but also inspired others to actively participate in such impactful initiatives, making a positive difference in the lives of the village people and the community at large.

During this event, 35 students from SRITW played an active role in educating the people on the importance of awareness to villagers. They provided valuable insights and information to the people on how to ensure seasonal diseases. This included instructions on keeping the toilets clean and sanitary, promoting personal hygiene, and the significance of maintaining a healthy greenery environment in the healthy community.

The program aimed to raise awareness among the jagannathpur village people about the significance of seasonal disease awareness program is an initiative aimed at promoting the importance of seasonal diseases awareness program typically focuses on educating people about health risks associated with specific seasons, such as flu in winter or mosquito-borne

diseases in summer. It may include information on prevention, symptoms, and treatment options.

The program was a collective effort, with 35 students from SRITW actively participating and playing a crucial role. A seasonal diseases awareness program holds significant importance for several reasons like: Prevention: It helps people understand the health risks associated with different seasons and provides them with knowledge on how to prevent common seasonal illnesses.

This program had a far-reaching impact Early Detection: By educating individuals about the symptoms of seasonal diseases, it encourages early detection and treatment, reducing the severity and spread of illnesses. Public Health: Such programs contribute to overall public health by reducing the burden on healthcare systems, particularly during peak seasons for specific diseases. Community Well-being: Promoting awareness fosters a sense of responsibility and community well-being, as people are more likely to take measures to protect themselves and others.

The Plantation Awareness program was conducted by the NSS Unit of SRITW on the 4th of March 2019 in Jagannathpur village. The active involvement of SRITW's dedicated volunteers and their commitment to improving seasonal diseases among Jagannathpur village people is commendable. The participation of esteemed figures like Chairman Sri A. Varadha Reddy Garu and Principal Dr. I. Rajasri Reddy further underscores the significance of this initiative. This is a shining example of how disease education and community engagement can lead to a healthier and more aware society. It is a testament to the power of collective effort and dedication to making a positive impact on the lives of individuals and the community at large.

6. Awareness on skill development among rural students

DATE: 8-3-2019

The NSS Unit of SRITW organized an awareness program on skill development among rural students for students with rural backgrounds. This program took place at the Government High School in Hasanparthy on 8th of March 2019

Our beloved chairman of SR Educational institutions, Sri. A. Varada Reddy Garu took a proactive initiative on the topic by supporting and advocating for the awareness program on skill development among rural students conducted by the NSS Unit of SRITW. His interest in initiating such a program reflects his dedication to society welfare and education. His involvement served as an inspiring example of how influential figures can actively contribute to initiatives that promote health and hygiene.

Respected Principal Madam, Dr. I. Rajasri Reddy Garu, played a pivotal role in the successful execution of the awareness program on skill development among rural students conducted by the NSS Unit of SRITW. Her leadership and guidance were instrumental in bringing together the volunteers and ensuring the program's objectives were met. She has actively supported and encouraged the initiative, emphasizing the importance of skill development for the rural background students. Her involvement not only highlighted her dedication to the betterment of society but also inspired others to actively participate in such impactful initiatives, making a positive difference in the lives of the students and the community at large.

The event aimed to bridge the gap between urban and rural students by focusing on the critical aspect of skill development. Skill development is not just a buzzword but a fundamental element in equipping individuals with the tools they need to lead a productive and self-reliant life. The NSS unit recognized the potential and eagerness of rural students to learn and acquire new skills, and this program was designed to empower them with knowledge about various skills and career opportunities. It was a platform for these young minds to explore the plethora of options available and to realize their potential.

The active participation of 40 students from SRITW highlighted the importance of such initiatives. It demonstrated the hunger for knowledge and the willingness to learn and grow among these students. They actively engaged in the program, absorbing information and practical insights that can significantly impact their future prospects.

The awareness program covered a wide range of topics related to skill development, including vocational training, entrepreneurship, digital literacy, and soft skills. Experts in these fields were invited to share their knowledge and experiences, providing students with a holistic understanding of what it takes to succeed in the modern world.

Furthermore, the event encouraged interaction and hands-on learning, allowing students to actively participate in workshops, discussions, and practical demonstrations. This not only made the sessions more engaging but also gave students a taste of what they could achieve with the right skills.

The Awareness program on Toilet Hygiene conducted by the NSS Unit of SRITW at the Government High School in Hasanparthy on July 29, 2021, stands as example of proactive society service and education. The active involvement of SRITW's dedicated volunteers and their commitment to improving toilet hygiene among rural background students is commendable. The participation of esteemed figures like Chairman Sri A. Varadha Reddy garu and Principal Dr. I. Rajasri Reddy further underscores the significance of this initiative. This is a shining example of how education and community engagement can lead to a healthier and more aware society. It is a testament to the power of collective effort and dedication to making a positive impact on the lives of individuals and the community at large.

7. Awareness on Women Empowerment

DATE: 9-3-2019

On the 9th of March 2019, a remarkable event took place, as the NSS unit of SRITW orchestrated a campaign to raise awareness about women's empowerment. This initiative was a resounding call to action, demonstrating a commitment to fostering gender equality and empowering women in various spheres of life.

The timing of this event, on International Women's Day, was particularly significant. It symbolized the NSS unit's dedication to the cause of women's empowerment, and it allowed for a global focus on the challenges and achievements of women.

The program, likely organized with meticulous planning, would have incorporated various elements aimed at educating and inspiring participants. It might have featured inspirational speakers, experts in women's rights and empowerment, and role models who have broken barriers in their respective fields. Workshops and interactive sessions would have been designed to address critical issues such as gender equality, women's health, economic independence, and the importance of education.

By raising awareness about women's empowerment, the NSS unit served as a catalyst for change in the community. Such initiatives help dismantle stereotypes and preconceived notions about the role and potential of women. They foster an environment where women and girls can envision a future of empowerment and equal opportunities.

Moreover, this event likely encouraged men and women, young and old, to become allies in the pursuit of women's empowerment. It underscored that gender equality is not solely a women's issue but a societal one. Everyone has a role to play in promoting and supporting the empowerment of women, and this awareness campaign would have reinforced that message. In conclusion, the NSS unit of SRITW, by conducting an awareness campaign on women's empowerment on 9th of March 2019, demonstrated a profound commitment to gender equality and the upliftment of women. Such initiatives are instrumental in driving social change, as they inspire, educate, and mobilize individuals and communities to work together towards a more equitable and empowered future for all.

The Awareness program on women's empowerment conducted by the NSS Unit of SRITW at the Government High School in Hasanparthy on 9th of March 2019, stands as an example of proactive society service and education. The active involvement of SRITW's

8. Awareness Campaign on personal health and books donation to orphan girls

DATE: 15-3-2019

On the 15th of March 2019, a heartwarming and multifaceted campaign was carried out by the NSS unit of SRITW. This initiative aimed to raise awareness about personal health and extend much-needed support to orphaned girls through book donations. This event underscored the power of community involvement and the NSS unit's commitment to holistic well-being and education.

The dual nature of this campaign demonstrated a thoughtful and comprehensive approach to community service. Firstly, the emphasis on personal health awareness is crucial in promoting individual well-being. This likely involved informative sessions, workshops, and practical demonstrations on various aspects of personal health, including nutrition, exercise, mental health, and preventive care. Empowering individuals with the knowledge and tools to take charge of their health is a foundational step towards building a healthier and more resilient community.

In addition to the focus on personal health, in this event 35 students of SRITW decision to donate books to orphaned girls was both heartening and impactful. Access to education is a fundamental right, and the act of donating books to those in need can have a profound and lasting effect on the lives of these girls. Education is a pathway to empowerment and a brighter future, and by providing books, the NSS unit extended an invaluable gift to orphaned girls, opening doors to knowledge, self improvement, and personal growth.

The date of this campaign, March 15, 2019, holds a special significance as it marks a day when the community came together to support and uplift one another. This initiative showcased the ability of individuals to create positive change in their surroundings and improve the lives of those less fortunate.

In conclusion, the NSS unit of SRITW, through its campaign on personal health awareness and book donations to orphaned girls on March 15, 2019, exemplified the true spirit of community service and empowerment. This campaign not only provided essential knowledge about personal health but also offered a ray of hope and opportunity to orphaned

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

girls, demonstrating the far-reaching impact of thoughtful and compassionate initiatives within a community.

The orphaned girls who were the recipients of these donations found themselves surrounded by a world of possibilities. The books they received opened doors to knowledge, imagination, and empowerment. Education is a stepping stone to breaking the cycle of poverty, and the community's support was instrumental in providing these girls with the tools to build a brighter future.

The success of this event was not just measured by the donations made or the number of people who participated; it was in the positive impact it had on individuals and the community as a whole. It highlighted the importance of personal health, education, and social responsibility. This initiative served as a reminder that positive change is possible when individuals and communities come together with a shared vision for a better future.

In conclusion, the joint awareness campaign on personal health and book donation drive for orphaned girls that took place on March 15, 2019, was a heartening event that touched the lives of many. It not only empowered individuals to take control of their health and well-being but also extended the hand of opportunity and knowledge to orphaned girls who deserve a brighter future. It was a testament to the transformative power of community action and collective efforts.

9. English Vocabulary for primary level orphanaged children

DATE: 20-3-2019

On the 20th of March 2019, a heartwarming and impactful awareness campaign took place, dedicated to enhancing the English vocabulary of primary-level orphaned children. This initiative was a testament to the commitment of individuals and organizations to provide educational opportunities and support to those who needed it most.

The campaign aimed to address a fundamental educational need for these children: improving their English language skills. English proficiency is often a vital factor in a child's educational journey, opening doors to a world of knowledge and opportunities.

Recognizing the importance of language development, this program was meticulously planned to cater to the specific needs and challenges of primary-level orphaned children.

The program was thoughtfully designed to engage and inspire the children. The organizers understood that for young minds, learning is most effective when it is fun and interactive. A team of dedicated educators, language experts, and enthusiastic volunteers led the way, ensuring that the program was both enjoyable and educational. Children participated in a variety of activities designed to expand their English vocabulary. Games, puzzles, storytelling sessions, and interactive lessons were all part of the curriculum. These activities not only made the learning process enjoyable but also helped children remember and use new words in context. The children were encouraged to actively participate, fostering their interest and confidence in the language. One of the highlights of this campaign was the use of carefully selected storybooks and reading materials suitable for the age group.

These books transported the children into the enchanting world of stories, where they learned new words while developing a love for reading. Early exposure to books and stories is known to have a profound impact on a child's language skills and lifelong appreciation for literature.

The personalized attention given to each child was a cornerstone of this initiative. 30 students dedicated time to work with individual children, addressing their specific needs and providing one-on-one support when required. This approach ensured that no child was left behind, and each child received the guidance they needed to expand their English vocabulary. The impact of the campaign extended far beyond the classroom. The children not only gained

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

valuable language skills, but their confidence and self-esteem also received a significant boost. Feeling competent in English, they were more likely to participate actively in school activities and communicate effectively with their peers and teachers.

The broader community played an essential role in supporting this initiative. People came forward with donations of books, educational materials, and resources to help enrich the children's language development. This sense of collective responsibility and support underscored the power of community action in positively shaping the lives of orphaned children.

In conclusion, the awareness campaign on English vocabulary for primary-level orphaned children, held on March 20, 2019, was a testament to the transformative power of education and community involvement. The event equipped these children with vital vocabulary skills and instilled in them a love for learning and reading. It was a touching demonstration of how collective efforts and the dedication of individuals can make a significant difference in nurturing the potential of orphaned children and helping them build a brighter future.

10. Positive attitude towards their well being

DATE: 25-3-2019

On the 25th of March 2019, a significant event took place at SRITW College, where a remarkable awareness campaign was conducted to promote a positive attitude towards overall well- being. This initiative, which engaged 40 students from SRITW College, was a powerful demonstration of the impact of collective action on personal and communal health and happiness.

The campaign focused on the concept of a positive attitude and its profound effect on well- being. It recognized that cultivating a positive mindset is not only essential for individual growth but also for the betterment of the community. The event brought together students, faculty, and experts in the fields of psychology, wellness, and personal development to explore various aspects of maintaining a positive outlook on life.

The awareness campaign was multifaceted, encompassing physical, mental, and emotional well-being. Various sessions and activities were organized to encourage a holistic approach to well- being. These activities were designed to be interactive, engaging, and relevant to the lives of college students.

Physical well-being was addressed through fitness sessions, nutrition workshops, and discussions on the importance of regular exercise and a balanced diet. These sessions provided students with practical tools to improve their physical health, which in turn contributed to their overall sense of well-being. The awareness campaign was multifaceted, encompassing physical, mental, and emotional well-being. Various sessions and activities were organized to encourage a holistic approach to well-being. These activities were designed to be interactive, engaging, and relevant to the lives of college students.

The active participation of many students from SRITW College was a testament to their commitment to personal growth and well-being. They enthusiastically engaged in workshops, discussions, and practical exercises, showing a genuine interest in the subject matter.

Their active involvement fostered a sense of community and support among the student body, reinforcing the idea that a positive attitude is not an individual endeavor but a shared responsibility.

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

Furthermore, the campaign served as an opportunity for students to share their own experiences and insights on maintaining a positive attitude. They shared personal anecdotes and success stories, which added a relatable and authentic dimension to the discussions.

The success of this campaign extended beyond the event itself. It left a lasting impact on the college community, fostering a culture of positivity, support, and personal growth. The students who actively participated were better equipped to face the challenges of college life and beyond with a positive attitude, making them not only academically prepared but also mentally and emotionally resilient.

In conclusion, the awareness campaign on cultivating a positive attitude towards overall well-being, held on March 25, 2019, at SRITW College, was a remarkable and transformative event. It actively engaged many students and provided them with valuable insights and tools to enhance their physical, mental, and emotional well-being. This initiative was a testament to the power of a positive mindset and the impact it can have on individual lives and the broader college community.

1. Legal Awareness Camp

DATE: 24-07-2019

NSS unit of SRITW conducted an Awareness Program on “LEGAL AWARENESS CAMP” to the Ananthasagar government school students on 24th July 2019. 30 students of SRITW actively participated in the camp. The objective of this program is how Legal Awareness helps to promote consciousness of Legal culture, participation in the formation of laws and the Rule of law.

District Legal service authority cell secretary Sri Vikram garu attended the program as a Chief Guest and students addressed on Legal issues. He spoke on Ragging, a major problem for students. He said that, a separate law is introduced for this and the people who engaged in ragging will be sent to jail and they will be suspended.

Respected Principal Dr. I. Rajasri Reddy garu, took a great initiation to realize the students on Legal Awareness with this program. AO G. Venugopalaswamy, and staff participated in this program.

Legal awareness camps aim to empower individuals with knowledge about their legal rights and the legal system. We provided information on various aspects of the law, such as civil rights, family law, property rights, and consumer protection. This camp is conducted to school students. This camp included information on basic legal procedures, how to access legal aid, and what to do in case of legal issues. Legal awareness camp use various methods to disseminate information. This is an interactive session with students to get awareness.

By this camp, student can become more informed and confident in dealing with legal matters. This can help in preventing legal issues and resolving existing ones. This camp plays a crucial role in promoting access to justice, especially where legal knowledge is limited. They can bridge the gap between the legal system and the public. In some cases, legal awareness camps may also connect participants with legal aid services or pro bono lawyers who can offer assistance when needed. Empowering individuals with legal knowledge not only benefits them individually but also contributes to a more just and informed society.

This program gave a glance over, one's rights, responsibilities, and the legal system. That can empower students to make informed decisions and take action within the bounds of the law. It's essential for ensuring justice and upholding the rule of law in society.

2. Awareness on the problems faced by the women in the society

DATE: 22-08-2019

NSS unit of SRITW conducted an “Awareness program on problems faced by the women” in the society at muttaram government school on 22nd August 2019. This event has created awareness on how to overcome the problems faced.

In today's rapidly changing world, it's imperative that we acknowledge and address the persistent challenges faced by women in our society. By understanding these issues, we can work collectively to build a more inclusive and equitable future for everyone. So we have educated students about this with the intention that all the students must overcome this problems.

Some of the problems we have introduced them to get awareness are:

1. **The Gender Pay Gap:** On average, women earn 82 cents for every dollar earned by men? This disparity is even wider for women of color. Closing this gap would not only benefit women but also boost the economy.
2. **Gender-Based Violence:** Shockingly, one in three women worldwide has experienced physical or sexual intimate partner violence. By fostering a culture of respect and consent, we can work towards eradicating this pervasive issue.
3. **Access to Quality Education:** Millions of girls around the world still face barriers to education. By investing in girls' education, we empower them to break free from cycles of poverty and contribute to their communities.
4. **Limited Economic Opportunities:** Discrimination in hiring and promotions often means women have fewer chances for stable, well-paying jobs. It's time to level the playing field and ensure equal opportunities for all.
5. **Underrepresentation in Leadership Roles:** Women make up just a fraction of leadership positions in politics, business, and other sectors. Diverse perspectives in leadership are crucial for effective decision-making.
6. **Reproductive Rights and Health:** Every woman should have the right to make decisions about her own body. Access to quality reproductive healthcare is essential for women's well-being and autonomy.
7. **Unequal Distribution of Household Responsibilities:** The burden of domestic work and childcare still disproportionately falls on women. Sharing these responsibilities more

equally benefits families and allows women to pursue their own aspirations.

By becoming aware of these challenges, they can take action to create a more inclusive and equitable society. They can stand together, advocate for change, and work towards a future where all women can thrive.

This program aims to provide a concise yet comprehensive overview of the challenges faced by women, while also encouraging students to take action.

3. Seminar on Role of youth in social change

DATE: 02-11-2019

NSS unit of SRITW conducted a “SEMINAR ON ROLE OF YOUTH IN SOCIAL CHANGE” at Yellapur government school on 02nd November 2019. 35 students of SRITW attended the seminar and told the importance of Youth for the healthy functioning of the society.

We thought that students are the future youth of our country they are capable of changing our country. Future of our society depends on them either it's good or bad it just depends on youth. So we decided to educate them and give a glimpse about role of youth in social change.

We have explained some of the aspects to students in which Role of Youth is Significant, they are:

Fresh Perspective: Youth often bring fresh perspectives and innovative ideas to address social issues, challenging the status.

Activism: Young people are at the forefront of various social movements, advocating for issues like climate change, racial equality, gender equality, and more.

Advocacy: They use their voices to raise awareness about social injustices and push for change through advocacy and campaigns.

Grassroots Initiatives: Youth-led grassroots initiatives address local issues and can have a profound impact on their communities.

Technology and Social Media: Young people leverage technology and social media to mobilize support, connect with like-minded individuals, and amplify their messages.

Community Engagement: They actively engage in community service, volunteering, and outreach programs to bring about positive change.

Voting and Political Engagement: Many youth participate in the political process, voting, and running for office to influence policy decisions.

Education and Awareness: Youth engage in educational efforts to inform their peers and the public about critical social issues.

Bridge between Generations: They serve as a bridge between older generations and new ideas,

fostering intergenerational dialogue and collaboration.

Long-Term Impact: By starting early, youth can create a long-term impact, as their effort scanshape the future of society.

The energy, passion, and idealism of young people make them a driving force in social change movements across the globe. Their involvement is essential for creating a more just and equitable world. Through this seminar we gave students much enough information for society change.

4. Self Defense Training for girl students

DATE: 25-2-2019

NSS unit of SRITW conducted a training Program on **Self Defense** for intermediate students of TSWRJC - Elkaturthy at SRITW on **25th February 2019**. All the Volunteers of SRITW actively participated in the program. The campaign focuses on promoting fitness and healthy living habits and encourages people to get involved. Health is wealth.

Self-defense refers to the actions or techniques that individuals use to protect themselves from physical harm or danger. It is a fundamental right and a legal concept in many jurisdictions that allows individuals to use reasonable force to defend themselves, others, or their property when faced with a threat of violence or harm.

Here are some key points about self-defense:

1. **Right to Self-Defense:** Most legal systems recognize the right to self-defense. This means that if you reasonably believe you are in immediate danger of physical harm, you can use force to protect yourself.
2. **Proportionality:** Self-defense typically requires that the level of force used must be proportional to the threat. In other words, you can't use deadly force to protect yourself from a non-deadly threat.
3. **Imminence:** You can only use self-defense if the threat is imminent, meaning it is about to happen or is happening right now. You generally can't use self-defense to protect against a perceived threat that might occur in the future.
4. **Avoidance:** Some jurisdictions require individuals to first attempt to avoid the threat or use non-violent means to resolve the situation before resorting to physical force.
5. **Stand Your Ground vs. Duty to Retreat:** Laws regarding self-defense vary by jurisdiction. Some places follow the "stand your ground" principle, which means you're not legally required to retreat before using force. Others follow a "duty to retreat" principle, which requires individuals to try to escape or avoid the situation if possible before using force.
6. **Castle Doctrine:** Some jurisdictions have "castle doctrine" laws that allow individuals to use force, including deadly force, to protect their homes or properties without a duty to retreat.
7. **Citizen's Arrest:** In some cases, individuals may be allowed to use force to make a citizen's arrest, but the rules and legal requirements for this are typically very specific and

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

vary by jurisdiction.

8. Self-Defense Training: Many people choose to undergo self-defense training to learn techniques and strategies for protecting themselves. These may include martial arts, firearms training, or other forms of personal defense education.

It's essential to understand the specific self-defense laws and regulations in your jurisdiction, as they can vary significantly. Using excessive or unjustified force in self-defense can lead to legal consequences. It is advisable to consult with an attorney if you have questions about self-defense laws in your area. Additionally, seeking out self-defense training from reputable instructors can help you gain the skills and confidence needed to protect yourself effectively.

5. Rally to aware the people regarding tobacco related diseases

DATE: 29-08-2019

NSS unit of SRITW conducted a “**Rally to create awareness among the people regarding tobacco related diseases**” at Indiranagar village on **29th August 2019**. All the students and Volunteers actively participated in the rally. Participated students raised the slogans and shared the information regarding the problems caused by tobacco.

Raising awareness about tobacco-related diseases is a crucial public health initiative. Tobacco use is a leading cause of preventable diseases and deaths worldwide. Here's a plan for a rally to educate people about the dangers of tobacco and promote a smoke-free lifestyle:

1. Define the Purpose and Goals:

Clearly define the purpose of the rally: To educate the public about the health risks associated with tobacco use and to encourage smoking cessation.

Set specific goals, such as increasing knowledge about the health risks, encouraging people to quit smoking, or promoting smoke-free policies.

2. Organize a Team:

Assemble a team of volunteers who are passionate about the cause and can help with planning, logistics, and promotion.

3. Choose a Date, Time, and Location:

Select a date and time that is convenient for the target audience.

Choose a central, public location with high foot traffic, such as a city square, park, or outside a government building.

4. Secure Necessary Permits:

Check with local authorities to obtain any required permits for a public gathering or rally.

5. Plan the Program:

Speakers: Invite healthcare professionals, former smokers, and experts in tobacco-related diseases to speak.

Personal Stories: Share personal stories of people who have successfully quit smoking and those who have suffered from tobacco-related illnesses.

Educational Materials: Distribute brochures, pamphlets, and other educational materials on the risks of tobacco use and resources for quitting.

Interactive Activities: Consider setting up interactive booths or games.

6. Mega Tree plantation at Mulkanoor village

DATE: 11-9-2019

NSS unit of SRITW conducted a Program on **Mega Tree plantation** at Govt. high school **Mulkanoor** on **11th September 2019**. 35 students of SRITW actively participated in the program and gave the importance of Tree Plantation to create green belt and avenues for meeting aesthetic recreational needs to people. Planting Trees helps to reduce temperature and increase humidity. SAVE TREE-SAVE LIFE.

Tree plantation is a vital environmental initiative that involves planting trees to restore or increase forested areas, improve air and water quality, combat climate change, enhance biodiversity, and provide numerous other ecological, social, and economic benefits. Here are some steps and considerations for organizing a tree plantation event:

Planning: Set clear objectives for your tree planting event. Are you aiming to increase tree cover in a specific area, raise environmental awareness, or address local environmental issues determine the target number of trees to plant and the type of trees that are suitable for the local climate and ecosystem.

Location: Choose a suitable location for tree planting, such as a public park, school grounds, community garden, or degraded natural areas in need of restoration. Obtain any necessary permissions or permits from local authorities or landowners.

Seedlings: Acquire healthy tree seedlings or saplings from a reliable nursery or supplier. Ensure that the species selected are native or well-suited to the local environment.

Volunteers: Recruit volunteers from the community, schools, environmental organizations, and local businesses. Consider promoting the event through social media, local news, and community bulletins.

Tools and Equipment: Gather the necessary tools and equipment, including shovels, gloves, watering cans or hoses, and mulch to ensure the proper planting of the trees.

Education: Provide educational materials and brief training for volunteers on the importance of tree planting, proper planting techniques, and the long-term benefits of trees.

Tree Planting Day: Organize a specific date and time for the tree planting event. Ensure there are enough supplies and equipment for all participants.

[HOME](#)

Affiliated to JNTUH - Approved by AICTE

Divide participants into small teams and assign each team a specific area for planting.

Planting Care: Discuss the importance of caring for the newly planted trees, which may include regular watering, mulching, and protection from pests.

Monitoring and Maintenance: Appoint responsible individuals or teams to monitor the growth and health of the planted trees over time. Make sure the trees receive ongoing care as needed.

Follow-Up and Long-Term Impact: Continue to engage with the community and volunteers to nurture a sense of stewardship for the planted trees and the environment.

Monitor the long-term environmental impact of the trees in terms of air and water quality, wildlife habitat, and carbon sequestration. Tree plantation events not only contribute to environmental conservation but also foster a sense of community, education, and appreciation for nature. They can be a meaningful way to address local environmental challenges and make a positive impact on the planet.

7. Awareness programme on the importance of gender equality

DATE: 22-9-2019

NSS unit of SRITW conducted an awareness program on the **Importance of Gender equality** at Mulkanoor govt. high school on **22nd September 2019**. 35 students of SRITW actively participated in the program. By conducting this program students understood the gender equality in the society. Gender equality is essential for the economic prosperity.

NSS unit Of SRITW conducted an awareness program on the **importance of gender equality** at Mulkanoor govt. high school on **22nd September 2019**. All the students and Volunteers actively participated in the program .By conducting this program students are understood the gender equality in the society. Gender equality is essential for the economic prosperity.

Gender equality refers to the equal rights, responsibilities, and opportunities of all individuals, regardless of their gender. It involves recognizing and addressing the disparities and discrimination that have historically disadvantaged women and other gender-diverse individuals. Awareness of gender equality is the understanding and acknowledgment of the importance of achieving gender equality in all aspects of society. Here are some key points regarding awareness of gender equality:

Understanding the Concept, Awareness begins with understanding what gender equality means. It's not just about women's rights; it's about achieving equality for all genders, including women, men, transgender individuals, and non-binary people. Recognizing Discrimination, Being aware of gender equality involves recognizing instances of discrimination, bias, and sexism that persist in various aspects of society, such as the workplace, education, healthcare, and more.

Challenging Stereotypes i.e. Gender stereotypes can limit opportunities and perpetuate inequality. Awareness means actively challenging and breaking down these stereotypes, which include beliefs about the roles, behaviors, and characteristics associated with different genders. Promoting Equal Opportunities An awareness of gender equality entails supporting policies and practices that ensure equal opportunities for all individuals, regardless of their gender identity. This includes advocating for fair hiring, promotion, and pay practices.

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

Education and Empowerment, Promoting awareness of gender equality often involves educating people about its importance and empowering individuals to take action. This can be achieved through workshops, discussions, and public awareness campaigns.

Legislation and Legal Rights Awareness extends to advocating for and upholding legal rights and protections against gender-based discrimination. Laws and policies that ensure gender equality are essential.

Intersectionality, Recognizing that gender equality is intertwined with other forms of inequality, such as race, class, sexuality, and disability, is a crucial aspect of awareness. Understanding how these factors intersect is essential for a more inclusive approach to gender equality.

Supporting Diverse Perspectives, It's important to acknowledge and support the voices and experiences of people from diverse gender backgrounds, particularly those who have been historically marginalized or excluded. Promoting Positive Role Models, Awareness includes celebrating and promoting positive role models who challenge gender stereotypes and lead by example in promoting equality.

Continuous Learning, Gender equality is an ongoing journey, and awareness involves a commitment to continuous learning and growth. This can include staying updated on research, trends, and best practices in gender equality.

Awareness of gender equality is a critical step toward achieving a more just and equitable society. It involves not only acknowledging the issues but also actively working to address them and promote a more inclusive and equal world for all individuals, regardless of their gender.

8. Life skill Training

DATE: 26-9-2019

NSS unit of SRITW conducted a programme on **Life Skills Training** at KGBV-Elkathurthy village on **26th September 2019**. 40 students actively participated in the training programme. This programme created awareness on a broad set of social and behavioural skills that enable individuals to deal effectively with the demands of everyday life.

Life skills training is important for personal development. It includes skills like communication, problem-solving, time management, and emotional intelligence, which are valuable for success in various aspects of life. Certainly, life skills training covers a wide range of skills that are essential for personal and professional development. Here are some key areas of life skills training:

Communication Skills: Effective communication is vital in both personal and professional relationships. This includes listening, speaking, and non-verbal communication.

Problem-Solving: Learning how to analyze problems, identify solutions, and make decisions is a fundamental life skill.

Time Management: Time management helps you prioritize tasks, set goals, and make the most of your time.

Stress Management: Techniques for handling stress and maintaining mental well-being are crucial in today's fast-paced world.

Emotional Intelligence: Understanding and managing your emotions, as well.

Life skill training is a comprehensive approach to developing essential skills that can help individuals lead a more fulfilling and successful life. Here's some more information on life skills training. Life skills are not only valuable for personal growth but are also highly sought after by employers. They play a crucial role in career development, as they contribute to a person's overall effectiveness in the workplace.

Part of life skills training involves setting clear, achievable goals. This helps individuals have a sense of direction and purpose in life.

Life skills can be learned through formal education, self-help books, workshops, or online resources. There are various courses and programs designed to enhance these skills. Practice

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

L e a r n i n g a t i t s b e s t

Affiliated to JNTUH - Approved by AICTE

and Consistency: Developing life skills takes time and practice. Consistency is key, and individuals should be patient with themselves as they work on improving these skills.

Personalized Approach: Life skills training can be tailored to an individual's specific needs and goals. Not everyone needs the same set of skills, so it's important to identify which skills are most relevant to your life.

Mental Health and Well-Being: Many life skills, such as stress management and emotional intelligence, contribute to mental health and overall well-being. They can help individuals cope with challenges and maintain a positive outlook.

Teaching Life Skills to Youth: Life skills are often taught to young people to help them prepare for adulthood. Schools and youth organizations often incorporate life skills education to empower young individuals with the tools they need to succeed in life.

Life skills training is not a one-time effort. To stay relevant and adaptable in an ever-changing world, individuals should continue to refine and expand their life skills throughout their lives.

9. Nature Awareness and Science Achievements

DATE: 03-10-2019

NSS unit of SRITW conducted an awareness programme on **Nature and Science Achievements** at Yellapur govt. school on **03rd October 2019**. 40 students and Volunteers actively participated in the programme and enhanced students understanding of science concepts.

Nature awareness and scientific achievements are both significant aspects of human development. Nature awareness involves understanding and appreciating the natural world, while scientific achievements encompass advancements in various fields of science. Here's a brief overview of each:

Environmental Consciousness: Nature awareness involves recognizing the importance of preserving the environment and understanding the impact of human activities on the natural world.

Biodiversity: It encompasses the appreciation of the diversity of plant and animal species, as well as ecosystems, and the importance of conserving them.

Eco-friendly Practices: Promoting sustainable living, such as reducing waste, conserving energy, and supporting eco-friendly initiatives, is a key component of nature awareness.

Outdoor Education: Engaging with nature through activities like hiking, bird watching, and camping can foster a deeper connection to the environment.

Space Exploration: Scientific achievements include remarkable discoveries in space exploration, such as the landing of rovers on Mars and the study of distant galaxies.

Medical Breakthroughs: Advances in medicine and healthcare, like the development of vaccines, gene therapies, and breakthroughs in cancer treatment, have improved human health and longevity.

Information Technology: Innovations in information technology have transformed the way we live and work, with developments like artificial intelligence, cloud computing, and the Internet of Things.

[HOME](#)

Renewable Energy: Progress in renewable energy sources, such as solar and wind power, has the potential to address environmental challenges and reduce our reliance on

fossil fuels.

Scientific achievements in biotechnology have led to genetic engineering, the development of new drugs, and the study of genetic diseases. Both nature awareness and scientific achievements are interconnected, as science plays a crucial role in understanding and preserving the natural world. They contribute to our overall well-being and the sustainability of the planet.

1. Spreading awareness on oldage pension schemes

DATE: 16-03-2021

NSS Unit of SRITW conducted an **Awareness program** on “**Old age pension schemes**” to the public at Kamalapur village on **16th March 2021**. 35 Students of SRITW has actively participated in the program and demonstrated how to avail old age pensions.

Our beloved chairman of SR Educational institutions Sri. A. Varada Reddy Garu attended this remarkable awareness program and gave his insights and instructed every oldage person to avail the pension. Sri A. Varada Reddy Garu suggested head of the village to make sure that every old age person in the village is availing this pension scheme.

Respected Principal Madam, Dr. I. Rajasri Reddy Garu, took a great initiation to benefit the old people for a better survival with this program. Madam shared her valuable thoughts like importance of this scheme and how to avail and get benefitted from this scheme.

Various Heads of the Department also participated in this program and spread awareness about this programme. The Government of India is implementing various schemes and programmes to provide healthy, happy empowered dignified and self-reliant life to senior citizens, along with strong social and inter-generational bonding.

Government is aware about the need of love, care, medical, housing, etc. of the senior citizens. For this purpose, various schemes/ programmes are being implemented by the Government for welfare of senior citizens.

Old age pension schemes are social assistance programs designed to provide financial support to elderly individuals who have reached a certain age and meet specific eligibility criteria. These schemes aim to ensure a basic level of income for senior citizens and help alleviate poverty among the elderly population .

The National Social Assistance Programme (NSAP) is a government initiative in India that includes various pension schemes, including the Indira Gandhi National Old Age Pension Scheme. Under the IGNOAPS, individuals aged 60 years or above who belong to the Below Poverty Line (BPL) category are entitled to a monthly pension of Rs. 200/- up to 79 years of age and Rs. 500/.

[HOME](#)

Old age pension schemes exist in various countries around the world. For example, in France, the social security system provides retirement benefits, including old-age pensions.

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Affiliated to JNTUH - Approved by AICTE

The basic pension program under the general scheme in France does not provide for an orphan's pension, but it exists under the supplementary scheme and certain special schemes. One of the most crucial schemes enacted by the government, which could have been a life support for the elderly of the country is the Indira Gandhi National Old Age Pension Scheme, which was launched in 1995. But still there are thousands out there who are not receiving their pensions.

A total of 931 [416 (37.4%) males and 515 (55.3%) females] participants completed the interview. Of the total, 809 (86.9%) participants were aware of at least one social welfare scheme. Participants utilizing any of the social welfare schemes were 393 (42.2%). Females utilized the social welfare schemes almost twice as compared to males (AOR = 1.7, 95% CI: 1.1–2.6). Participants aged 75 years and above had four times higher utilization of social welfare schemes compared to 60–64 years age group (AOR = 3.9, 95% CI: 2.4–6).

Those in the rural areas are more aware of IGNOAPS at 57.6 per cent compared to 48.6 per cent in urban areas. Similarly, 45 per cent in rural and 42 per cent in urban areas are aware of IGNWPS. On the other hand, only 13 and 12 per cent in urban and rural areas, respectively, are aware of the Annapurna scheme.

Level of awareness about general provident fund (GPF) and national pension scheme (NPS) among the employees working in government sectors in Ambala and Karnal administrative division of Haryana. A survey of 250 respondents was carried out and 205 valid responses were received and properly analysed with descriptive statistics. The reliability and validity of the data has been checked through Cronbach's alpha (.871). The result of the study showed that majority of national pension scheme holders are not aware about investment in NPS tier II account, penalty rate for not maintain minimum balance and different option available in NPS. Keywords: defined benefit, defined contribution, pension reform, awareness.

2. Awareness on waste management to public

DATE: 19-03-2021

NSS Unit of SRITW conducted an **Awareness programme on Waste Management** to the public at Vangara village on **19th March 2021**. 40 students of SRITW has actively participated in the programme and created awareness on the importance of waste prevention, reuse and recycling, also explained them about the causes and consequences of waste disposal.

Waste management and disposal of waste is a serious issue that we are facing nowadays. If we are not aware of proper waste management, it leads to serious issues like air pollution, water pollution, and soil pollution. By doing small practices in our daily life we can make a huge difference. For that, we all have to practice the “3Rs” in our daily life.

An effective way to improve attitudes towards waste reuse and recycling is to integrate waste management education into school curriculum and particularly teaching children about the causes and consequences of waste disposal and highlighting the importance of waste prevention, reuse and recycling.

In addressing the e-waste hazard, there is an urgent need to move from a Linear & Reuse economy to a Circular economy. Linear economy follows the cycle as raw material, production, use and then to non-recyclable waste and the Reuse economy follows raw material, production, use, production and then to non-recyclable waste, while the Circular economy follows raw material, production, use, production and then to recycle waste. Linear economy focuses on profitability, irrespective of the product life cycle, whereas the Circular economy targets sustainability.

A sound market-based incentive focusing on stakeholders that encourages both demand and supply-side factors to voluntarily adopt e-waste recycling. Considering the adverse impacts caused by untreated e-waste on land, water, and air; the government should encourage the new entrepreneurs by providing the necessary financial support and technological guidance.

A critical component in any waste management program is public awareness and participation, in addition to appropriate legislation, strong technical support, and adequate funding. Waste is the result of human activities and everyone needs to have a proper

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

understanding of waste management issues, without which the success of even the best conceived waste management plan becomes questionable. The paper presents an overview of the fundamentals of waste management and, using examples from the United States, illustrates how public awareness and participation results in successful waste management. Examples of the methods and techniques that have been very effective in creating and enhancing public awareness of waste management problems, including the author's proven method of public education, are presented in the paper. The details of a course aimed at educating school teachers on waste management issues and a specialized curriculum on waste and litter control, designed for kindergarten through 8th grade students and developed by the author, are discussed in the paper. A case study dealing with remediation of one of the worst contaminated hazardous waste sites in the United States, that included substantial public participation, is reviewed. The paper concludes by emphasizing that the public must be made aware of waste management issues to understand the consequences of improper management of waste and how it may ultimately pose a serious threat to their lives and well-being.

3. Energy Saving and Safe use of Electrical Appliances

DATE: 07-04-2021

NSS Unit of SRITW conducted a program on **Energy saving and safe use of electrical appliances** to the students of KGBV- Hasanparthy on **07th April 2021**. 45 students of SRITW have actively participated in the program and gave the importance of energy, importance of electricity and how to use electrical appliances safely.

At its core, energy conservation is the practice of using less energy in order to lower costs and reduce environmental impact. This can mean using less electricity, gas, or any other form of energy that you get from your utility and pay for. With finite energy resources available on our planet, actively conserving energy when possible is beneficial individually and to our larger energy systems. There are many simple ways that you can save energy and save money at home.

Currently, in a country with 25 cr. households, 31% urbanisation (Census, 2011) and a per capita income of Rs. 39,143 (CSO, 2013) approximately 1274 TWh of energy is used by the residential segment which is mostly for electricity based end use and cooking. Electric appliance ownership is significantly increasing both in rural and urban households due to rise in income levels and gradual increase in reliable access. The product life of these appliances is about 10 - 15 years. Therefore, the efficiency (or inefficiency) of these products gets locked in once they are bought. Hence, it is extremely important to ensure that the new stocks of appliances are efficient.

Energy efficiency means using less energy to provide the same service. When considering how to save energy at home, it could be by using energy saving appliances or ensuring your home is properly insulated to reduce heating usage.

Energy efficiency is not to be mistaken with energy conservation. Although similar, energy conservation is the act of reducing or going without a service to save energy, for example, walking to the shop instead of using the car.

Energy efficiency at home is not just great for the environment and can reduce CO2 emissions, it's also great for your pocket and can save you money too.

Never use an ageing or faulty electrical appliance including an appliance with a frayed, cracked or broken plug, or any appliance that has given someone any kind of shock. Frayed or damaged cords should be replaced immediately or the appliance disposed of. Many old

[HOME](#)

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

plugs do not have safety barriers between the connections – replace them with modern plugs or dispose of the appliance.

The energy saving potential via the use of energy efficient appliances is significant across all the categories of appliances. Substantial and urgent efforts are required to completely realize the saving potential from improved appliance efficiency. The Integrated Energy Policy report (IEP, 2006) and the interim report of the Low Carbon Committee (LCC, 2011) of the Planning Commission have estimated a potential for electricity - use reduction of about 15 - 20% of total generation through energy efficiency.

Ceilings fans can use light - weight brushless DC (BLDC) motors that minimize rotor losses significantly reducing the electricity consumption as compared to fans using induction motors. Television sets with Liquid Crystal Display (LCD) technology combined with features like back - lighting with light - emitting diodes (LED) and auto brightness control offer both high energy efficiency and better picture quality over the using Cathode Ray Tube. The efficiency of refrigerators can be increased by a number of measures including reducing leakage of heat through the gasket, using high - efficiency compressors and increasing the efficiency of the evaporator and condenser. Technologies like electronically controlled variable speed compressors that match the compressor speed to the cooling needs can significantly reduce the consumption in room.

4.Rain water Harvesting program

DATE: 15-4-2021

NSS Unit of SRITW conducted a **Rain water Harvesting** to the SRITW on **15th April 2021**. All the 35 students of SRITW has actively participated the program. By conducting this program some of the students understood the importance of rain water harvesting and how the level of water increases during the dry seasons.

Rainwater harvesting is the simple process or technology used to conserve rainwater by collecting, storing, conveying and purifying of rainwater that runs off from rooftops, parks, roads, open grounds, etc. for later use. Here, let us have a look at the diagram of rainwater harvesting system.

The rainwater harvesting system is one of the best methods practised and followed to support the conservation of water. Today, scarcity of good quality water has become a significant cause of concern. However, rainwater, which is pure and of good quality, can be used for irrigation, washing, cleaning, bathing, cooking and also for other livestock requirements.

Rainwater harvesting (RWH) is the collection and storage of rain, rather than allowing it to run off. Rainwater is collected from a roof-like surface and redirected to a tank, cistern, deep pit (well, shaft, or borehole), aquifer, or a reservoir with percolation, so that it seeps down and restores the ground water. Dew and fog can also be collected with nets or other tools. Rainwater harvesting differs from storm water harvesting as the runoff is typically collected from roofs and other surfaces for storage and subsequent reuse.[2]:10 Its uses include watering gardens, livestock,[3] irrigation, domestic use with proper treatment, and domestic heating. The harvested water can also be committed to longer-term storage or groundwater recharge.

Rainwater harvesting is one of the simplest and oldest methods of self-supply of water for households, having been used in South Asia and other countries for many thousands of years.[5] Installations can be designed for different scales including households, neighborhoods and communities and can also be designed to serve institutions such as schools, hospitals and other public facilities.

Rainwater harvesting is the practice of collecting and storing rain for reuse, rather than letting the water run off and be absorbed into the ground or channeled into drains,

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

streams, or rivers. It is one of the easiest ways to conserve water at home while also lowering your bills. Whether you opt for a custom-designed system or a simple rain barrel collection method, harvesting rainwater is a smart and sustainable choice.

The practice of rainwater harvesting is gaining new relevance as the impacts of the climate crisis accelerate and parts of the world experience drier and longer droughts, depletion of groundwater, and freshwater pollution from saltwater flooding. Rainwater harvesting provides a source of clean fresh water in places where water is scarce, polluted, or only seasonally available. In addition, harvesting and storing rainwater can be a less expensive way (compared to desalination or piping water long distances) to guarantee safe, clean water for drinking and home use, as well as gardening, watering livestock, or agriculture.

Students are explaining about rain water harvesting at Hasanparthy on 15-04-2021.

1. Awareness program on Toilet Hygiene for government school students

DATE: 29-07-2021

The NSS Unit of SRITW organized an awareness program on Toilet Hygiene for students with rural backgrounds. This program took place at the Government High School in Hasanparthy on 29th July 2021.

Our beloved chairman of SR Educational institutions, Sri. A. Varada Reddy Garu took a proactive initiative on the topic by supporting and advocating for the awareness program on Toilet Hygiene conducted by the NSS Unit of SRITW. His interest in initiating such a program reflects his dedication to society welfare and education. His involvement served as an inspiring example of how influential figures can actively contribute to initiatives that promote health and hygiene.

Respected Principal Madam, Dr. I. Rajasri Reddy Garu, played a pivotal role in the successful execution of the awareness program on Toilet Hygiene conducted by the NSS Unit of SRITW. Her leadership and guidance were instrumental in bringing together the volunteers and ensuring the program's objectives were met. She has actively supported and encouraged the initiative, emphasizing the importance of proper toilet hygiene for the rural background students. Her involvement not only highlighted her dedication to the betterment of society but also inspired others to actively participate in such impactful initiatives, making a positive difference in the lives of the students and the community at large.

During this event, 30 students of SRITW played an active role in educating the students on the importance of maintaining clean and hygienic toilets. They provided valuable insights and information to the students on how to ensure proper toilet hygiene practices. This included instructions on keeping the toilets clean and sanitary, promoting personal hygiene, and the significance of maintaining a healthy environment in their school and community.

The program aimed to raise awareness among the rural background students about the significance of toilet hygiene, which is crucial for preventing the spread of diseases and promoting overall well-being. By actively participating in this initiative, the NSS Unit of SRITW demonstrated its commitment to community service and education, contributing to the betterment of the students and their surroundings.

The program was a collective effort, with all the volunteers from SRITW actively participating and playing a crucial role. They served as educators and role models, imparting

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

valuable knowledge to the students. Their focus was on maintaining clean and hygienic toilets, a fundamental aspect of health. The importance of keeping toilets clean to prevent the spread of diseases and promote overall well-being. They provided guidance on personal hygiene and taught the students how to maintain a healthy and sanitary environment in their school and community. By doing so, the volunteers helped instill good hygiene habits in the young minds of these rural background students.

This program had a far-reaching impact. It not only improved the immediate hygiene conditions at the Government High School but also contributed to a broader awareness of the significance of toilet hygiene within the community. It exemplified the dedication of the NSS Unit of SRITW to society service and education, as they actively worked to make a positive difference in the lives of the students and the overall health of the community. Such initiatives play a crucial role in fostering a sense of responsibility and awareness about hygiene among students and, by extension, their families and communities.

The Awareness program on Toilet Hygiene conducted by the NSS Unit of SRITW at the Government High School in Hasanparthy on July 29 2021, stands as example of proactive society service and education. The active involvement of SRITW's dedicated volunteers and their commitment to improving toilet hygiene among rural background students is commendable. The participation of esteemed figures like Chairman Sri A. Varadha Reddy garu and Principal Dr. I. Rajasri Reddy further underscores the significance of this initiative. This is a shining example of how education and community engagement can lead to a healthier and more aware society. It is a testament to the power of collective effort and dedication to making a positive impact on the lives of individuals and the community at large.

2. COVID-19 Awareness camp at Seetampet village

DATE: 06-08-2021

Students of SRITW conducted an Awareness Camp on COVID-19 to all the rural people of seetampet village under the leadership of our beloved chairman sri A. Varada Reddy garu, under the guidance of our respected principal Dr. I. Rajasree Reddy garu on 06 August 2021. 30 student of SRITW and faculty coordinators has participated actively.

During the camp, 30 students of SRITW actively engaged with the villagers, providing them with comprehensive information about COVID-19. They discussed the nature of the virus, its modes of transmission, and the common symptoms associated with the disease. By explaining how COVID-19 spreads, the villagers gained valuable insights into the importance of practicing good hygiene, such as regular hand washing and wearing masks, to prevent the virus from spreading within their community.

Students highlighted the significance of social distancing and avoiding crowded places, emphasizing how these measures can significantly reduce the risk of infection. student provided guidance on how to care for oneself or a family member if affected by COVID-19. This included information on home quarantine protocols, monitoring symptoms, and seeking medical help when necessary. By imparting practical knowledge on how to manage the situation if someone in their household contracted the virus, the villagers were better prepared to handle potential challenges related to COVID-19.

The awareness camp organized by the students of SRITW served as a beacon of knowledge, dispelling myths and providing accurate information about COVID-19 to the rural population of Seetampet village. Through their active participation and dedication, the volunteers contributed significantly to building a well-informed and resilient community capable of effectively combating the pandemic. Such initiatives demonstrate the importance of community engagement and education in creating a safer environment for everyone, especially during challenging times like the COVID-19 pandemic.

Our beloved Chairman of SR Educational institutions Sri. A. Varada Reddy Garu, a respected and influential leader, played a crucial role in the COVID-19 awareness campaign conducted by the students of SRITW in Seetampet village. His visionary guidance and unwavering support provided the foundation for this impactful initiative. Under his leadership, the camp received the necessary resources and organizational structure,

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

the volunteers to reach out to the rural community effectively. Chairman Vardareddy Garu's commitment to society welfare and his understanding of the importance of spreading awareness about COVID-19 were instrumental in the success of the camp. His active involvement not only demonstrated his dedication to the well-being of the villagers but also inspired others to actively participate and contribute to the cause.

Respected Principal Madam, Dr.I. Rajasri Reddy Garu, a dedicated and compassionate healthcare professional, played a pivotal role in the aforementioned awareness camp on COVID- 19 in Seetampet village. With her expertise and commitment to public health, she guided the NSS Unit of SRITW and its volunteers in designing informative sessions and activities. Her leadership inspired the volunteers to engage with the villagers in a meaningful way, fostering a sense of trust and understanding. Her dedication to the cause undoubtedly made a significant impact on the overall success of the awareness camp, leaving a lasting positive influence on the Seetampet village and its residents.

The active participation of various department heads from the college added significant depth and expertise to the COVID-19 awareness program in Seetampet village. These heads, experts in their respective fields, brought specialized knowledge to the initiative, enriching the content and ensuring a comprehensive understanding of the pandemic.

3. Distribution of Safety kits to the Ananthasagar village people

DATE: 13-08-2021

Students of SRITW conducted a Campaign on Distribution of safety kits to all the rural people of Ananthasagar village on 13th August 2021. 45 students of SRITW has actively participated in the campaign and told the need of masks to all the rural people and sanitizer.

Empowering Ananthasagar village: A Safety Kit Distribution Campaign by Students of SRITW In a commendable display of social service, the Students of SRITW organized a heartfelt campaign in Ananthasagar village on 13th August 2021. With a strong commitment to the well-being of the village people, the students actively participated in distributing safety kits, emphasizing the need for masks and sanitizers among the rural population.

The Initiative: The Students of SRITW, driven by its dedication to social welfare, launched a campaign focused on the distribution of safety kits to the rural residents of Ananthasagar village. Understanding the pressing need for essential safety measures during the ongoing pandemic, the volunteers undertook this initiative to empower the village with the necessary resources.

Active Student Participation: The campaign saw enthusiastic participation from the Students of SRITW. Their unwavering dedication and zeal were instrumental in the success of the initiative. With compassion and empathy, they engaged with the rural population, emphasizing the importance of wearing masks and using sanitizers as effective tools in combating the spread of diseases.

Spreading Awareness: One of the primary objectives of the campaign was to create awareness about the significance of masks and sanitizers in safeguarding public health. The volunteers tirelessly communicated the importance of these safety measures, ensuring that every individual in Ananthasagar village understood their role in maintaining personal and people hygiene.

Impact on Ananthasagar Village: The impact of this noble initiative was profound. The rural people of Ananthasagar village, who often face challenges in accessing essential resources, were provided with the means to protect themselves and their families. The safety kits distributed by the Students of SRITW served as a ray of hope, instilling a sense of

SUMATHI REDDY

security in the hearts of the villagers.

Village Empowerment and Beyond: Beyond the immediate distribution of safety kits, this campaign symbolized a larger commitment to community empowerment. By actively engaging with the residents, the Students fostered a sense of unity and solidarity. The knowledge imparted about the correct usage of masks and sanitizers furthered the cause of public health, contributing to the overall well-being of Ananthasagar village.

In conclusion, the Students of SRITW's campaign in Ananthasagar village stands as a testament to the power of collective action and social responsibility. Through their dedication and outreach, the students not only distributed safety kits but also sowed the seeds of awareness and compassion. This initiative serves as a beacon of inspiration, highlighting the positive impact that community-driven efforts can have on society.

Our beloved principal Dr. I Rajasree Reddy, the esteemed Principal of SRITW, stands as a beacon of inspiration within the academic community. Her visionary leadership and unwavering commitment to social welfare have left an indelible mark on both the institution and the surrounding villages. Under her guidance, SRITW has not only excelled in academic pursuits but has also actively embraced its social responsibility.

All the head of the departments participated actively in the program shared their thoughts and views to the village people about safety measures to be taken.

4. Awareness on Beti bachao beti padhao scheme

DATE: 24-9-2021

Students of SRITW conducted an Awareness program on **Beti Bachao Beti Padhao** to the girls of gopalpur village government school on **24th September 2021**. 30 students of SRITW has actively participated in the program and gave some valuable inputs to the girls on importance of girl education to live them independently and also to ensure that government is providing enough funds for the girls education.

In a profound demonstration of their commitment to social change, the students of SRITW undertook an enlightening venture on 24th September 2021. The occasion was an awareness program focusing on the pivotal message of “Beti Bachao Beti Padhao”, held at the Gopalpur Village Government School. This initiative was not merely an event; it was a powerful catalyst for transforming young lives, igniting aspirations, and fostering a sense of empowerment among the girls of the village.

Educational Enlightenment: The event served as an enlightening forum, where the young girls of Gopalpur Village Government School were exposed to the transformative power of education. SRITW students, embodying the spirit of service, passionately conveyed the importance of learning. They discussed how education is not just a tool for personal development but also a gateway to independence and self-reliance. By sharing real-life stories and success examples, the student of sritw inspired the girls to dream big and pursue education as a means to realize those dreams.

Government Support and Financial Accessibility: Crucially, the program addressed the concern of financial barriers that often hinder the educational journey of many. The discussion included valuable information about government initiatives, scholarships, and funds available to support girls' education. By providing insights into these resources, the participants were reassured that financial constraints should never thwart their educational ambitions. Empowered with knowledge, the girls now have the means to access the educational support they deserve, fostering a sense of hope and possibility.

Fostering Empowerment: Beyond the dissemination of information, the program fostered a sense of empowerment among the participants. Through interactive sessions and open dialogues, the girls voiced their aspirations, concerns, and dreams. This exchange not only provided them with a platform to express themselves but also instilled a sense of

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

L e a r n i n g a t i t s b e s t

Affiliated to JNTUH - Approved by AICTE

confidence and self-belief. The volunteers, in turn, became mentors and role models, showcasing the potential and opportunities that education can unlock.

Impact and Future Prospects: The impact of the Beti Bachao Beti Padhao awareness program extended far beyond the school premises. It sowed the seeds of aspiration, determination, and empowerment within the hearts of the young girls. Moreover, it reinforced SRITW's commitment to social welfare and education. The event was not just a momentary intervention but a building block for a brighter future. The knowledge imparted and the inspiration shared will continue to echo in the minds of these young learners, influencing their choices, shaping their destinies, and ultimately, transforming the fabric of their community.

In essence, the Students of SRITW's Beti Bachao Beti Padhao awareness program was a beacon of hope and education. It exemplified the institution's dedication to shaping a society where every girl is encouraged, supported, and empowered to script her own success story. By investing in education and nurturing the potential of these young minds, SRITW is not just building individuals; it is laying the foundation for a more enlightened, equitable, and prosperous society.

The program is held under the guidance of our principal Dr. I. Rajasree Reddy garu and in the presence of our faculty members. All the students participated actively and made the program successful.

5. Tank bund Cleaning Programme

DATE: 27-10-2021

Students of SRITW conducted a Clean and Green programme on Bhadrakali Tank bund at Warangal on 27th October 2021. 30 students of SRITW has actively participated the programme. Conducted swachh bharat programme and then collected 50 kg plastics by making the bund clean.

In the pursuit of environmental sustainability, the students of SRITW embarked on a significant journey by organizing a Clean and Green program at the Bhadrakali Tank bund at Warangal on the 27th of October 2021. This initiative not only underscored the unit's commitment to community service but also highlighted the urgency of environmental conservation in the face of escalating global challenges.

The event was marked by the enthusiastic participation of students from SRITW, who actively engaged in cleaning and beautifying the Bhadrakali Tank bund. The day commenced with a Swachh Bharat program, a flagship campaign by the Government of India, aimed at promoting cleanliness and hygiene across the nation. Under the banner of this program, the volunteers diligently worked towards creating a cleaner environment, emphasizing the importance of waste disposal and recycling.

One of the notable achievements of the event was the collection of 50 kg of plastic waste from the bund area. The volunteers meticulously gathered plastic materials, symbolizing the menace of plastic pollution that plagues our ecosystems. This collection served as a poignant reminder of the pressing need to reduce plastic usage and promote eco-friendly alternatives. The sheer volume of plastic collected underscored the magnitude of the issue and further motivated the volunteers to advocate for sustainable practices in their community.

The Clean and Green program also had a deeper impact on the volunteers themselves. Engaging in hands-on activities to preserve the environment instilled a sense of responsibility and awareness among them. By actively participating in the cleanup efforts, the volunteers gained practical knowledge about waste management and the importance of preserving natural habitats. These experiences not only fostered a sense of camaraderie but also inspired a collective commitment to continue working towards a cleaner, greener future.

Furthermore, the event also served as an educational platform, raising awareness

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

L e a r n i n g a t i t s b e s t

Affiliated to JNTUH - Approved by AICTE

about the significance of environmental conservation. Local residents and passersby were encouraged to join the cause, fostering a sense of community involvement and shared responsibility. The interactive sessions held during the program imparted valuable knowledge about the adverse effects of plastic pollution and the role of individuals in mitigating this crisis.

In conclusion, the Clean and Green initiative at Bhadrakali Tank bund in Warangal stands as a testament to the power of community-driven efforts in environmental conservation. Through their dedication and hard work, the students of SRITW demonstrated that small steps can lead to significant changes. The event not only cleaned a physical space but also cleansed the collective consciousness of the community, fostering a deep sense of environmental stewardship. As these initiatives continue to multiply and gain momentum, they pave the way for a more sustainable and eco-conscious future for generations to come. The program is organized under the guidance of our principle Dr. I. Rajasree Reddy garu and in the presence of our faculty members. All the students participated actively.

6. Quiz competitions on EK BHARAT SHRESHTHA BHARAT

Programme

DATE: 30-10-2021

Students of SRITW conducted a Quiz Competition on EK BHARAT SHRESHTHA BHARAT program to the students of govt. school in koppur village on 30th October 2021. 35 students of SRITW has actively participated the programme.

In a vibrant celebration of India's cultural diversity and educational excellence, the National Service Scheme students of SRITW organized a Quiz Competition on the EK BHARAT SHRESHTHA BHARAT program. This initiative, held on the 30th of October 2021 at a government school in Koppur village, exemplified the student's commitment to community service, education and fostering unity in diversity.

The event, designed to promote the ideals of EK BHARAT SHRESHTHA BHARAT, served as a dynamic platform for students from varied backgrounds to engage in intellectual exploration. Through a series of thought-provoking questions, participants delved into the rich tapestry of Indian culture, history, traditions, and regional uniqueness. More than just a competition, the event was a celebration of India's unity amid its cultural diversity.

The active participation of 30 students and SRITW was instrumental in making the competition a resounding success. The students, with their enthusiasm and thirst for knowledge, showcased the incredible potential within our educational institutions. The students, in turn, provided invaluable guidance and support, creating an atmosphere conducive to learning and healthy competition. Together, they exemplified the spirit of unity and collaboration, reflecting the very essence of EK BHARAT SHRESHTHA BHARAT.

Beyond the academic arena, the Quiz Competition had a transformative impact on the participants. It nurtured a sense of healthy competition, critical thinking, and camaraderie among the students. More importantly, it instilled in them a deep sense of pride in their cultural heritage and encouraged them to learn from and appreciate one another's traditions. This cultural exchange not only enriched the students' understanding of India's diverse fabric but also fostered mutual respect and harmony among them.

Moreover, the event underscored the Students to community engagement and social development. By reaching out to a government school in a rural village, the volunteers

emphasized the significance of providing equal educational opportunities to every child, regardless of their socio-economic background. The competition served as a bridge between urban and rural communities, promoting mutual understanding and cooperation. It exemplified the students of SRITW belief in the transformative power of education and cultural awareness in building a stronger, more harmonious society.

In conclusion, the of SRITW's Quiz Competition on the EK BHARAT SHRESHTHA BHARAT program stands as a shining example of how education can empower and unite. It showcased the remarkable potential of Indian youth and emphasized the importance of cultural understanding and harmony. The event's success was not merely in the knowledge shared or the winners celebrated but in the lasting impact it had on the hearts and minds of all participants. The students of SRITW commitment to education, unity, and community service serves as an inspiration, encouraging others to engage in similar initiatives for the collective betterment of our nation.

The program is held under the guidance of our principal Dr. I. Rajasree Reddy garu and in the presence of our faculty. All the students participated actively.

7. Awareness against dowry

DATE: 05-11-2021

Students of SRITW conducted an Awareness program Against Dowry to the girls on 05- 11-2021. 40 students of SRITW has actively participated in the program and educated the prevention methods on the practice of dowry.

On November 5, 2021, 30 students of SRITW organized a remarkable awareness program against the age-old societal scourge of dowry. The dedication and enthusiasm displayed by the students from SRITW who actively participated in this program were truly praiseworthy. This event marked a significant step in the ongoing battle against the practice of dowry, which continues to plague societies across the globe.

Dowry, a deeply entrenched social issue, has had far-reaching consequences on countless families and individuals. The gravity of this problem necessitates consistent efforts to combat and ultimately eradicate it. SRITW's proactive approach in conducting an awareness campaign against dowry demonstrates their unwavering commitment to addressing pressing social issues.

The heart of this initiative lay in educating and empowering young girls to stand against the practice of dowry. Through informative sessions and workshops, the students imparted crucial knowledge regarding the prevention methods associated with dowry. The significance of this education cannot be overstated. It empowers young women to make informed decisions and equips them with the tools to resist dowry demands.

Dowry not only perpetuates gender inequality but also subjects countless women to emotional and physical abuse. By organizing programs like this, SRITW plays a pivotal role in addressing these systemic injustices. It promotes gender equality, social justice, and the broader vision of a society free from the scourge of dowry.

It is worth commending the dedication and commitment of the students of SRITW who were instrumental in making this awareness campaign a success. Their involvement exemplifies the spirit of studentism and community service. It is individuals and organizations like these that bring about positive change and contribute to the betterment of society.

In conclusion, the awareness program against dowry conducted by the student of SRITW on November 5, 2021, is a testament to the power of education and community

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

engagement in addressing deep-rooted social issues. The ripple effect of such initiatives can create a society where the harmful practice of dowry is nothing but a relic of the past. SRITW's dedication to empowering young women and their unwavering commitment to social change is truly inspirational.

As we move forward, it is our hope that more institutions and individuals take inspiration from SRITW's example and actively participate in similar endeavors, bringing us closer to a more equitable and just society.

The program is organized under the guidance of our principal Dr. I. Rajasree Reddy garu and in the presence of HODs and faculty. All the students participated actively.

8. Essay writing competition on Impact of social media on youth

DATE: 10-12-2021

Students of SRITW conducted an **Essay Writing** competition on **Impact of social media on youth** to the students of govt. school at Yellapur on **10th December 2021**. 30 students of SRITW has actively participated the competition, by conducting this competition the students understood the impact of social media on youth.

It's wonderful to hear about the essay writing competition organized by the students of SRITW on December 10, 2021, focusing on the "Impact of Social Media on Youth." This event not only demonstrates a commitment to education and community engagement but also showcases the active participation of both students from SRITW. Such initiatives play a vital role in raising awareness and promoting critical thinking among the youth.

Social media has become an integral part of the lives of today's youth, shaping their behaviors, attitudes, and interactions. By organizing this competition for students from government schools at Yellapur, the NSS Unit of SRITW provided an opportunity for these young minds to reflect on and express their thoughts about the influence of social media.

The act of writing an essay not only encourages students to research and gather information but also helps them articulate their opinions and viewpoints. It fosters critical thinking and communication skills, which are essential in today's information age.

Furthermore, the active participation of the students and SRITW in this competition is a testament to the power of community engagement and collaboration. The volunteers, through their dedication, are providing a platform for students to learn and grow. This spirit of studism and mentorship is a valuable contribution to the holistic development of the youth. The most significant outcome of this competition is that it enhanced the students' understanding of the impact of social media on their lives. They are better equipped to navigate the digital landscape and make informed decisions about their online presence. This knowledge is crucial for their personal development and safety in the digital age.

In summary, the essay writing competition organized by the students of SRITW is a laudable initiative. It fosters critical thinking, encourages community engagement, and empowers students to understand and navigate the impact of social media on their lives. Such efforts are pivotal in equipping the youth with the skills and awareness they need to thrive in a digital world. SRITW's dedication to community service and education is commendable

9. Sensitization on Human Right and Child Abuse

DATE: 20-12-2021

Students of SRITW conducted a **Sensitization program on Human Right and Child Abuse** to all the students of Yellapur government school on **20-12-2021**. 30 students of SRITW has actively participated the program and gave some valuable inputs about the importance of human rights. The healthy development of children is crucial to the future for any well-being society.

On December 20, 2021, the UBA Unit of SRITW orchestrated a noteworthy Sensitization program on Human Rights and Child Abuse. The beneficiaries of this program were the students of Yellapur Government School. This initiative shines a spotlight on pressing issues while demonstrating SRITW's dedication to education, awareness, and societal betterment.

Human rights and child abuse are weighty matters that profoundly influence both individual lives and communities. By conducting this sensitization program, SRITW not only acknowledges the significance of these concerns but actively engages in generating awareness and equipping young individuals with the knowledge they need to understand their rights and protect themselves against abuse.

The active involvement of SRITW students in this program is a testament to their commitment to community service and the sharing of invaluable insights. These insights offer students a deeper understanding of the importance of human rights, reaffirming the necessity of respecting and upholding these fundamental rights for a fair and equitable society. Childhood represents a pivotal phase in an individual's life. Ensuring the healthy development of children is of paramount importance for the future well-being of any society. By addressing the issue of child abuse and promoting awareness of human rights, SRITW is playing a vital role in nurturing responsible, compassionate citizens who will contribute to the betterment of their communities and the broader world.

This sensitization program serves as both an educational event and a platform for fostering empathy, understanding, and respect for human rights and the protection of children. It equips students with the knowledge and tools to recognize and report abuse, thereby contributing to their personal safety and well-being.

In conclusion, the Sensitization Program on Human Rights and Child Abuse

SUMATHI REDDY

organized by the UBA Unit of SRITW is a commendable endeavor that underscores the significance of these issues within our society. It provides a solid foundation for young minds to develop with a sense of responsibility, empathy, and a firm commitment to human rights. SRITW's dedication to community welfare and societal improvement is evident in such initiatives. These actions set a positive example for others to emulate and contribute to the realization of a more equitable and just future. Through their active engagement in education and awareness, SRITW's UBA Unit is indeed making a meaningful difference in the lives of the youth and the community as a whole.

The program is organized under the guidance of our principal Dr. I. Rajasree Reddy garu and in the presence of HODs and faculty. All the students participated actively.

1. Campaign on Importance of education to government school students

DATE: 17-11-2022

NSS unit of SRITW conducted a campaign on “Importance of Education” to government school students at Elkathurty village on 17-11-2022. 30 students of SRITW participated actively and gave some valuable inputs to students on education, awareness on women education importance, and their vital role in society and their communication skills and to design their paths towards their goals.

Education is of paramount importance to government school students for several compelling reasons. Firstly, education equips them with the knowledge and skills necessary to participate in the workforce, fostering economic growth and reducing poverty. Well-educated citizens are more likely to find gainful employment and contribute to the country's tax base, which ultimately benefits the government's revenue.

Secondly, education is a cornerstone of social mobility. Government schools provide opportunities for students from diverse backgrounds, often from less privileged communities, to access quality education. This helps break the cycle of poverty and inequality by offering them a path to a better future.

Furthermore, education instills critical thinking, problem-solving abilities, and civic awareness. Government school students, when well-educated, become informed and engaged citizens who can actively participate in democratic processes, make informed decisions, and contribute positively to their communities.

Moreover, education is essential for public health and social stability. It imparts knowledge about healthcare, sanitation, and disease prevention, which can lead to healthier lives and reduce the burden on the healthcare system. Educated individuals are also more likely to follow the rule of law and maintain social order, reducing the government's expenses on law enforcement and incarceration.

Education is a powerful tool that not only enriches the lives of government school students but also contributes to the overall development of society. It has a profound impact on the economy, social mobility, civic participation, public health, and social stability, making it an indispensable asset to government school students and the government itself.

2. Awareness program on computer system usage to school students at KGBV-Mulkanoor

DATE: 19-12-2022

NSS unit of SRITW conducted a campaign on “Awareness program on computer system usage” to Kasturba Gandhi Balikala Vidyalayam at mulkanoor village on 19-12-2022. 30 students participated actively and helped the students on how to use computer and importance of computer knowledge in future; how computer knowledge helps them to find a job.

Creating awareness on computer systems among school students at KGBV (Kasturba Gandhi Balika Vidyalaya) in Mulkanoor is an essential and progressive endeavor. The integration of computer education in these schools holds numerous benefits for the students, the schools, and the community as a whole.

Firstly, imparting computer knowledge equips students with essential digital skills. In today's technologically driven world, proficiency in using computers is fundamental for future success. It opens up career opportunities and provides a competitive edge in various fields.

Secondly, computer education fosters digital literacy. It empowers students to navigate the digital landscape safely and responsibly. They learn about online privacy, cyber security, and how to critically assess information on the internet. This knowledge is crucial in an age where information is readily accessible but not always reliable.

Furthermore, computer education enhances the overall quality of education at KGBV-Mulkanoor. It makes learning more engaging and interactive, allowing students to grasp complex concepts more effectively. Educational software and online resources can complement traditional teaching methods, making learning more accessible and enjoyable.

Moreover, computer awareness can bridge the digital divide. Many students in rural areas might not have access to computers at home, making the school's computer lab their primary exposure to this technology. By providing access to computers and training, KGBV-Mulkanoor can help level the playing field for these students.

3. Awareness program on NABARD Schemes in association with Mulkanoor Cooperative rural bank

DATE: 20-12-2022

NSS unit of SRITW conducted an awareness program on “NABARD (National bank for agriculture and Rural Development) Scheme” at Mulkanoor on 20-12-2022. In this awareness program, mulkanoor cooperate bank staff along with 35 students of SRITW educated about various schemes and how to avail them.

Creating awareness about NABARD (National Bank for Agriculture and Rural Development) schemes at Mulkanoor Cooperative Rural Bank is a significant initiative that can bring about positive changes in the lives of rural communities. NABARD plays a pivotal role in financing and promoting various agricultural and rural development programs, and ensuring that rural banks like Mulkanoor Cooperative Rural Bank are well-informed about these schemes is essential.

Firstly, raising awareness about NABARD schemes can empower the local farming community. NABARD offers various financial support and resources for agriculture, livestock, and rural development projects. Ensuring that farmers and rural entrepreneurs are aware of these opportunities can help them access the necessary funds to improve their livelihoods.

Secondly, promoting NABARD schemes can lead to enhanced agricultural productivity. By availing themselves of NABARD's financial assistance and technical guidance, farmers can adopt modern farming practices, invest in better equipment, and implement sustainable agricultural techniques. This, in turn, can lead to increased crop yields and improved income for rural households.

Furthermore, NABARD schemes often include initiatives for rural infrastructure development. This can mean improved roads, irrigation facilities, and other vital rural infrastructure. Raising awareness about these schemes at Mulkanoor Cooperative Rural Bank can encourage local communities to take advantage of such opportunities for better living conditions.

4. Distribution of school bags for orphan girls on the occasion Srinivasa Ramanujan birth anniversary at KGBV- Mulkanoor village

DATE: 22-12-2022

NSS unit of SRITW distributed school bags for orphan students at KGBV Mulkanoor conducted on 22-12-2022 on the occasion of Srinivasa Ramanujan birth anniversary and conducted some quiz and games competition to the students to improve their mental ability and Physical ability. 30 students of SRITW participated actively and interacted with the students and gave hope to the orphan students that they are not alone. School Principal Mrs. Jyothi and teaching staff of KGBV have attended the program.

Distributing school bags for orphan girls on the occasion of Srinivasa Ramanujan's birth anniversary at KGBV (Kasturba Gandhi Balika Vidyalaya) village is a heartwarming and meaningful gesture that has several positive impacts.

Firstly, this act of generosity provides essential educational resources to orphaned girls, ensuring that they have the tools they need to pursue their education effectively. School bags are a practical necessity, and by distributing them, you remove a barrier to their learning. Secondly, celebrating Srinivasa Ramanujan's birth anniversary adds an educational and inspirational dimension to the event. Ramanujan, a renowned Indian mathematician, is a symbol of brilliance and dedication in the field of mathematics. By commemorating his legacy, you encourage these girls to aspire to greatness in their studies and embrace the power of knowledge.

Furthermore, such acts of kindness foster a sense of community and solidarity. It shows the girls that they are cared for and supported by their community, instilling a sense of belonging and self-worth, which is crucial for their overall development.

In conclusion, distributing school bags on Srinivasa Ramanujan's birth anniversary at KGBV village is not just about providing material resources; it's about nurturing the educational aspirations and well-being of orphaned girls. It's a beautiful way to make a positive impact on their lives, inspire them academically, and demonstrate the importance of community support.

5. Awareness program on Dairy farming to the students

DATE: 24-12-2022

NSS unit of SRITW conducted an awareness program on “**Dairy Farming**” to the students of Govt. school at Mulkanoor village on 24-12-2022. 30 students are participated actively and are given information about the working of dairy farm, what are the items produced in dairy farm and how to generate revenue.

Creating awareness about dairy farming among students is a crucial educational initiative that can have far-reaching benefits. Dairy farming, as an integral part of agriculture, not only contributes to the economy but also plays a significant role in ensuring food security and providing employment opportunities.

Introducing students to the concept of dairy farming offers several advantages. Firstly, it teaches them about the importance of sustainable agriculture and the production of dairy products such as milk, cheese, and yogurt. This awareness can help them appreciate the role of dairy farming in providing nutritious food to communities.

Secondly educating students about dairy farming fosters an understanding of animal husbandry practices, including the care and management of dairy cattle. This knowledge is essential for the ethical treatment of animals and ensuring the well-being of livestock.

Furthermore, creating awareness about dairy farming can inspire students to consider careers in agriculture or related fields. It can expose them to the various aspects of the dairy industry, from production and processing to marketing and distribution.

Moreover, it's important for students to recognize the economic significance of dairy farming, particularly in rural areas. Dairy farming can be a source of livelihood for many families, and understanding its economic impact can lead to a greater appreciation of agriculture's role in local and national economies.

This program creates awareness about dairy farming among students is an educational endeavor that imparts knowledge about agriculture, animal husbandry, and economic sustainability. It equips them with valuable insights into the dairy industry, fostering respect for the environment and encouraging the consideration of agricultural careers. This awareness is not only relevant in academic contexts but also for creating informed and

6. Distributing Computer system to Library for online education resources (Prajagranthalayam)

DATE: 19-1-2023

NSS unit of SRITW distributed computer system to library (praja Granthalayam) at Mulkanoor village for the welfare of student development in their studies on 19th January 2023. 35 students participated actively and interacted with the library people and got the information about books available in library and students daily visiting the library. Sarpanch of the village Sri Madgula Komuraiah garu received the computer system on behalf of the library staff.

Distributing computer systems to a library, such as "Prajagranthalayam," is a commendable initiative that can have a profound impact on the community's access to information and education. Libraries have traditionally been hubs for learning, research, and community development, and providing them with computer systems enhances their capabilities in several ways.

Firstly, equipping a library with computer systems expands the resources available to library visitors. It allows users to access a wide range of digital materials, including e-books, online databases, and educational websites. This digitalization of resources can greatly enrich the library's offerings. Secondly, computers in the library enable patrons to conduct research, access online courses, and develop digital literacy skills. This empowers the community by providing tools for self-education and personal growth. It's especially valuable for students and individuals seeking to improve their knowledge and skills.

Furthermore, computer systems can facilitate administrative tasks and enhance library management. They can help with cataloging, tracking loans, and improving communication between library staff and users. This streamlines operations and ensures a more efficient and user-friendly experience. Moreover, the library can serve as a community technology center, providing access to the internet and basic computer skills training. This is particularly important in bridging the digital divide, ensuring that individuals who may not have access to computers at home can still harness the power of the digital world.

In conclusion, distributing computer systems to a library like "Praja Granthalayam" is an investment in education, information access, and community development. It transforms the library into a modern, technology-driven resource center that empowers individuals with knowledge and skills while promoting lifelong learning. This initiative not only benefits the library but also has a lasting positive impact on the community it serves.

7. Inter-college drawing competitions conducted remembering pulwama attack at Elkaturthy TSWRSJC

DATE: 14/2/2023

NSS unit of SRITW conducted a program on “Inter-college drawing competitions conducted remembering Pulwama attack” at Elkathurthy for TSWRSJC students on 14-02-2023. 35 students are participated actively best sketches are given their prizes.

Inter-college drawing competitions conducted at Elkaturthy TSWRSJC (Telangana Social Welfare Residential Junior College) are an excellent platform for nurturing artistic talent and promoting creativity among students. These competitions serve multiple purposes and offer various benefits.

Firstly, they provide students with an opportunity to showcase their artistic skills and creativity. Art is an integral part of education, and such competitions encourage students to explore their artistic talents, express themselves, and develop their abilities in a supportive and competitive environment.

Secondly, these competitions foster healthy competition and a sense of achievement. Students can compare their work with peers from other colleges, learn from each other, and strive to improve. Winning or even participating in such events can boost their self-confidence and motivate them to pursue art further.

Furthermore, inter-college drawing competitions encourage cultural exchange and appreciation. Students from different colleges come together, share their perspectives, and appreciate the diversity of artistic expressions. It promotes a sense of unity and understanding among young artists.

Moreover, these events can help in identifying and nurturing exceptional talent. Exceptional artists may receive recognition and opportunities to further their art education or pursue a career in the field.

In conclusion, inter-college drawing competitions at Elkaturthy TSWRSJC provide a platform for students to express their creativity, compete, learn, and grow as artists.

8. Awareness program on Vermicompost

DATE: 17/2/2023

NSS unit of SRITW conducted a program on “Awareness on Vermicompost” at Indiranagar on 17th February 2023. 45 students got information about vermicompost making in home, how it is useful for the environment.

Vermicompost, often referred to as worm compost or worm castings, is a nutrient-rich organic fertilizer and soil conditioner produced through the process of vermicomposting. This eco-friendly and sustainable practice involves using specific species of earthworms, such as *Eisenia fetida* or Red Wigglers, to decompose organic matter like kitchen scraps, garden waste, and paper products. These earthworms consume this organic material and excrete nutrient-rich castings, which are a valuable source of humus, beneficial microorganisms, and essential plant nutrients.

Vermicompost is highly regarded in agriculture and gardening for several reasons. First, it enhances soil structure by improving its water-holding capacity and aeration, making it ideal for plant growth. The presence of beneficial microorganisms in vermicompost aids in disease suppression and soil health. Furthermore, vermicompost is an excellent source of essential plant nutrients like nitrogen, phosphorus, and potassium, as well as micronutrients such as calcium, magnesium, and iron. These nutrients are released slowly, providing a sustained source of nourishment for plants, which can lead to improved crop yields and healthier gardens.

The production of vermicompost is relatively straightforward, making it accessible to individuals and small-scale farmers. It reduces the amount of organic waste going to landfills, contributing to waste reduction and environmental sustainability. Additionally, vermicomposting is a sustainable alternative to chemical fertilizers, promoting healthier and more eco-friendly agricultural practices.

As awareness of the benefits of vermicompost continues to grow, it is increasingly integrated into organic farming, gardening, and sustainable agriculture practices. Its ability to enrich soil, enhance plant growth, and reduce the environmental impact of waste disposal makes vermicompost a valuable resource in the pursuit of greener and more sustainable

9. Awareness program on Importance of Voting

DATE: 20-2-2023

NSS unit of SRITW conducted an awareness program on “Importance of voting” at mulkanoor intermediate government College students on 20th February 2023. 35 students are explained the importance of voting to the students.

Voting is a fundamental civic duty that lies at the heart of democratic societies, and it plays a critical role in shaping the course of a nation's future. Conducting and participating in elections is an essential part of the democratic process, allowing citizens to have a say in the selection of their leaders and the policies that govern their lives.

The importance of voting cannot be overstated. It is the primary means through which citizens express their preferences and values, helping to create a government that represents the will of the people. When individuals vote, they are essentially contributing to the decision- making process that affects various aspects of their lives, from education and healthcare to theeconomy and social justice.

Participating in elections not only empowers citizens but also holds elected officials accountable for their actions. It serves as a check and balance system in a democracy, allowing voters to support or remove leaders based on their performance and alignment with the public's needs and desires. Furthermore, voting is the cornerstone of social change, providing a peaceful and legitimate means for citizens to advocate for the causes and policies they believe in.

Conducting elections in a fair, transparent, and accessible manner is essential for maintaining the integrity of a democratic system. This process involves voter registration, polling stations, ballot casting, and secure vote counting. Election authorities and officials must ensure that the process is free from fraud, manipulation, or any form of disenfranchisement to guarantee that every eligible citizen has an equal opportunity to cast their ballot.

Increasing awareness about voting, its importance, and the electoral process is crucial in engaging more citizens in the democratic process. Educational campaigns, outreach initiatives, and civic education programs play a significant role in encouraging voter turnout. Ultimately, a well-informed and active electorate is the cornerstone of a healthy democracy, ensuring that the government remains accountable to the people it serves and represents the diverse interests of its citizens.

10. Harithaharam Program

DATE: 21-3-2023

NSS unit of SRITW conducted a program on "Harithaharam" on the occasion of "WORLD FOREST DAY" at Ananthasagar village on 21st March 2023. All the volunteers participated actively and planted the trees. Later some volunteers gave some valuable speechless about the intention of organizing harithaharam, what is the use of planting trees, how they are useful throughout our life and how to maintain the environment clean and green.

The Harithaharam Program, which translates to "Green Necklace," is a significant environmental initiative undertaken in the Indian state of Telangana and several other regions to combat deforestation, mitigate the impacts of climate change, and promote a forestation. This program is particularly relevant in a college context, where it can serve as an educational tool and a practical demonstration of environmental stewardship.

Conducting the Harithaharam Program in a college setting involves students, faculty, and staff collectively planting a large number of tree saplings on campus grounds. This hands-on experience not only instills a sense of responsibility and ecological awareness in the college community but also serves as a symbolic representation of the institution's commitment to sustainability and environmental conservation. Inclusion of this initiative in the college book or documentation is essential to showcase the institution's active participation in such a crucial environmental campaign.

The importance of Harithaharam cannot be overstated. It contributes to the mitigation of climate change by sequestering carbon dioxide, enhancing biodiversity, conserving soil and water resources, and creating a healthier environment. This program not only benefits the college campus but also sends a powerful message to the broader community, inspiring individuals to adopt greener practices and engage in tree-planting efforts. In addition, Harithaharam aligns with the United Nations Sustainable Development Goals, making it a critical component of global efforts to achieve a sustainable and environmentally responsible future. By participating in this initiative, colleges can foster a culture of environmental responsibility and lead by example, setting the stage for a greener and more sustainable future.

10. Awareness program on Digital Ecosystem of India

DATE: 29-3-2023

NSS unit of SRITW conducted a program on “awareness on digital ecosystem of India” for the faculty members of government intermediate college Elkathurthy at SRITW on 29th march 2023. All the faculty members participated actively, the main focus of a digital ecosystem strategy is to provide more value to the customers. By understanding each customer better and adjusting the product or service offering, an ecosystem company can grow revenues and expand its market all students got to know this valuable information.

The digital ecosystem of India represents a vast and dynamic landscape of technology and innovation that has been rapidly evolving in recent years. It encompasses a wide range of digital platforms, services, and technologies that have had a transformative impact on various aspects of the country's economy and society. India's digital ecosystem is marked by several key elements, including widespread internet connectivity, a burgeoning startup culture, the adoption of digital payment systems, e-governance initiatives, and a growing digital literacy among its citizens.

One of the most remarkable aspects of the digital ecosystem in India is the rapid expansion of internet access. With a significant increase in smartphone penetration and the availability of affordable data plans, a large section of the population now has access to the internet. This has not only opened up new opportunities for businesses and individuals but has also facilitated the delivery of essential services such as education and healthcare to remote and underserved areas.

The rise of startups and technology companies in India has been instrumental in driving innovation and economic growth. India has emerged as a global hub for tech startups, with companies specializing in diverse fields, from e-commerce and fintech to health. These startups are not only contributing to economic development but are also addressing critical challenges in areas like education, healthcare, and financial inclusion.

The adoption of digital payment systems, especially the Unified Payments Interface (UPI), has revolutionized the way financial transactions are conducted in India. It has promoted financial inclusion, reduced cash reliance, and facilitated secure and efficient

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

Learning at its best

Affiliated to JNTUH - Approved by AICTE

digital transactions for both urban and rural populations.

E-governance initiatives have made government services more accessible and transparent, improving the delivery of public services. Digital identity systems, such as Aadhar, have streamlined administrative processes and improved the efficiency of social welfare programs.

The promotion of digital literacy and education has been a priority, with initiatives aimed at enhancing digital skills and knowledge among the population. The "Digital India" campaign, for instance, has played a pivotal role in raising awareness and expanding digital literacy.

Incorporating this information into a college book is essential to provide students with a comprehensive understanding of India's digital ecosystem. It highlights the importance of digital technologies and innovation in the country's development and the opportunities they present. It also serves as a testament to India's commitment to a digital future, underlining the importance of digital literacy and innovation in shaping not only the nation's economy but also its social and cultural fabric.

12. Awareness on Helmet use

DATE: 8-5-2023

NSS Unit of SRITW conducted on “Awareness on Helmet use” at Hanamkonda on 8th May 2023. 45 Students are participated actively in rally by wearing helmets and also interacted with the area traffic police officers.

Promoting helmet use is a critical aspect of safety and responsible behavior, and when it is conducted within a college community, it sets a powerful example for students and staff alike. The use of helmets while riding motorcycles, scooters, or bicycles is an essential practice that can save lives and prevent severe head injuries in the event of accidents. Conducting awareness campaigns within the college environment serves to educate and encourage individuals to prioritize their safety while commuting.

Incorporating this message in the college magazine underscores the institution's commitment to the well-being of its community members. It sends a clear message that safety is paramount and that responsible behavior is actively encouraged. Helmets not only provide protection but also promote a culture of safety that extends beyond the college campus into daily life. By featuring articles, stories, and testimonials about helmet use in the college magazine, students and staff are reminded of the importance of this practice, encouraging them to be responsible road users and set a positive example for others in their communities. This emphasis on helmet use is not just a safety measure but a representation of the college's values, promoting the welfare and responsible choices of its community members.

13. The Green journey- Awareness program on Organic Farming

DATE: 15-06-2023

NSS unit of SRITW conducted a program on “The green journey-Awareness on organic farming” at Indira nagar village for government intermediate students of Huzurabad on 15-06-2023 at Chinthalapalli.

In the pursuit of a sustainable and environmentally conscious future, our college has embarked on a remarkable journey towards raising awareness about the merits of organic farming. Organic farming represents a holistic approach to agriculture, one that emphasizes soil health, biodiversity, and natural processes while eschewing synthetic pesticides and fertilizers. It is a journey that not only impacts our college campus but also contributes to the broader movement for a greener and healthier planet.

At the core of our college's initiative is the belief that organic farming holds the key to addressing a myriad of critical issues. Firstly, it promotes soil health and fertility through practices such as crop rotation, composting, and reduced chemical usage. These methods result in nutrient-rich soil that yields healthier crops, increased agricultural resilience, and reduced soil erosion.

Furthermore, organic farming champions biodiversity by avoiding the use of harmful chemicals that can disrupt ecosystems. It encourages the coexistence of various plant and animal species, fostering a balanced environment that is more resilient to pests and diseases. This, in turn, minimizes the need for harmful pesticides and promotes sustainable pest management.

In our college's journey, we are not only raising awareness but also actively engaging in organic farming practices. We have established organic gardens and greenhouses where students and faculty work together to cultivate a wide range of organic produce. These hands-on experiences allow us to understand the nuances of organic farming, from soil preparation to the harvesting of chemical-free, nutrient-dense vegetables and fruits.

The benefits of this journey extend beyond the boundaries of our campus. By educating our college community and sharing our experiences, we are contributing to a

SUMATHI REDDY

INSTITUTE OF TECHNOLOGY FOR WOMEN

L e a r n i n g a t i t s b e s t

Affiliated to JNTUH - Approved by AICTE

movement towards sustainable and eco-friendly agriculture. Organic farming has the potential to combat climate change by sequestering carbon in the soil, reduce the harmful effects of synthetic chemicals on human health, and strengthen local and organic food systems.

Our college's commitment to "The Green Journey" is not just about embracing a sustainable future; it's about empowering future generations with knowledge and the skills necessary to be stewards of our planet. This is more than a magazine article; it's a call to action, an invitation for everyone to join us in this endeavor. Together, we can sow the seeds of change, cultivating a greener, healthier, and more sustainable world through organic farming.
